

Johnlouis Petitbon

Development Director at Medidata Solutions

petitbon@gmail.com

Summary

IT professional with 15+ years of experience providing leadership in the design and development of online based software and e-commerce solutions.

Proven ability to guide senior management in the selection of technology strategies and Agile processes in a FDA regulated industry.

Responsible for managing resources, processes, and systems related to end-to-end business application lifecycle.

Currently specializing in large scale Service Oriented Architecture, Infrastructure As a Service and Infrastructure Configuration Management.

Specialties

Agile Software Life Cycle, Behavioral Driven Development, Cloud Computing, Business Continuity, Disaster Recovery, Distributed Systems, Extreme Programming, Infrastructure as a Service, Process Design, Scrum, Service Oriented Architecture, Software as a Service, Staffing.

Experience

Development Director at Medidata Solutions

February 2011 - Present (7 months)

Lead the Medidata DevOps team in building and maintaining fully automated server infrastructures based on product requirements, industry best practices and regulatory compliance. Collaborate in Medidata's SOA and its governance.

Currently looking for Ruby developers to join our DevOps team. <http://lnkd.in/b8vJQR>

Development Manager - Cloud Architect at Medidata Solutions

January 2010 - February 2011 (1 year 2 months)

Built the Medidata DevOps team, brought online new products using IaaS and authored a new installation qualification process.

Deployment Contractor at Medidata Solutions

July 2009 - December 2009 (6 months)

Responsible for planning, executing, optimizing and maintaining deployment strategies for

Medidata applications on the Amazon Cloud.

Cloud Consultant at 10X Studio

May 2009 - June 2009 (2 months)

I originally joined the 10X Studio Team to help them set up a robust EC2 server cloud for one of their clients [<http://www.food52.com>]. I quickly became aware of the help I could offer by evangelizing SCRUM and Agile methodologies.

4 people have recommended Johnlouis

"Johnlouis provided invaluable help and technical leadership in developing a complex ruby on rails application for us. He was a compelling (but not overbearing) scrum evangelist and proved himself to be creative, productive, and knowledgeable, with a good sense of humor in the process."

— **Eric Liftin**, was Johnlouis's client

"John is a loyal and collegial colleague. He works hard and invests himself fully in the task at hand. He goes above and beyond what is asked because he takes pride in his work and strives to push the envelope. He has an entrepreneurial spirit that is disciplined and focused. I would recommend John highly for any project or as a full-time colleague. He would be an invaluable asset to any organization."

— **Michael Scott**, *Product Manager, Lux Products Corporation*, worked directly with Johnlouis at Raidmyroom

"John's ideas, creativity and tremendous talent made the journey at Radicalfringe a breeze. It would never have been possible without him. Great ride for the past 9 years. "You rock too!"

— **Mauro catenacci**, *Owner, www.radicalfringe.com*, worked directly with Johnlouis at Radicalfringe

"Johnlouis is a conscientious worker who excels in creative work. In his time at Comvision, he interfaced well with clients, developed and implemented successful and attractive designs in accordance with client needs, and was both a friendly presence and effective manager of other employees."

— **Kenneth Redler**, *President, Comvision, Inc*, managed Johnlouis at Comvision
